

A dynamic background image showing a vertical stream of water falling from the top left, splashing into a large, turbulent pool of water at the bottom. The water is clear and bright blue, with white foam and bubbles visible in the splash. The overall composition is clean and emphasizes the purity and movement of water.

Closing Remarks
Guy P. Russo (Scholarship Chairman)

Reception

The Connecticut Water Works Association and the Connecticut Section of the American Water Works Association thanks each of our presenters for their valuable time here today.

All of us congratulate our scholarship recipients. May they each in their own way by education, career and volunteerism keep this day in their hearts and minds and actions.

As water, health and environmental professionals we realize that, in the words of President John F. Kennedy, “the torch is passed to a new generation.” That said, our faith in our recipients is strong.

Thank your for attending

Remember
